Acting Assistant Director of University Health Services in Charge of Women Students

MRS. H. MCKINNON, M.B.

Manager of the University of Toronto Press

A. G. BURNS, B.A.

DEPARTMENT OF UNIVERSITY EXTENSION

The Department of University Extension offers its services to any organization in the Province of Ontario in assisting to arrange either a single lecture or a series of lectures. On the following pages will be found the subjects which are available.

The Secretary of the organization is requested to specify definite dates and to list the names of speakers (several more than are actually needed) in the order of preference.

After the lecture is given, the Secretary or the Treasurer will receive from this Department a statement of the amount of travelling and other expenses; this statement will include the \$10.00 lecture fee for the lecturer. A cheque or money order made in favour of the lecturer should then be sent to this Department.

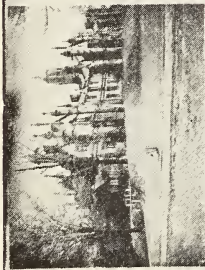

Many inquiries have been received regarding the possibility or feasibility of charging admission to lectures in order to make up the lecturer's fee and expenses. Some organizations have asked whether it is in order to make a profit on a university lecture. The University has no objection whatever to arrangements of this kind and has no regulations to the contrary. The matter is left entirely to the discretion of the officers of the local organization.

W. J. DUNLOP,
Director.
